

STANDARD FORM NO. 64

SECRET*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Chief, Research and Development Laboratory

DATE: 20 June 1956

FROM : Chief, External Projects Section

This document is part of an integrated file. If separated from the file it must be subjected to individual systematic review.

SUBJECT: SARAH Receiver Repair

1. In cooperation with the Water Air Division, TSS, OC-E furnished a complete airborne SARAH Receiving System to the U.S. Marine Corps, Quantico, Va., for tests in connection with helicopter operations and homing. The Marines are about to complete this test, but have run into some technical difficulty with the equipment.

2. Lt. Col. J. Wilcox, U.S. Marine Corps, TSS/WAD, has stated that they would like to return this equipment to this Division for a short period of time for repairing. It is requested therefore that repairs be made to this equipment as soon as practical upon receipt and that the repaired system be returned to Room 2605, Alcott Hall, for forwarding to the Marine personnel.
